<b>Programme Report</b>	Department of Education conducted a workshop on "Research Methodology" on 18/09/2019. The guest speaker for this programme was Dr. Anamika Shrivastava. This workshop revolved around the concept of research methodology. A research methodology is an outline of how a given piece of research is carried out. It defines the techniques or procedures that are used to identify and analyse information regarding a specific research topic. The research methodology, therefore, has to do with how a researcher designs their study in a way that allows them to obtain valid and reliable results and meet their research objectives. The programme was a huge success.
